

“Torch Deluxe” Lantern Flashlight Instructions

If the light will not turn on please do the following:

Make sure the batteries are inserted properly.

Pull up on the flashlight head so the lantern part shows.

Then click on the button at the end of the flashlight the light will turn on quickly double click, the light will change, do a quick double click and it will quick strobe, keep double clicking it will slow strobe, double click again and the lantern part will turn on. If you light does not change you are waiting to long to do the next click.

Do not face the lantern part towards your eyes as it is very bright.
